**NEWSLETTER**

DECEMBER

2009

sailplane.aus

## Cover

Elegant is how you would describe our new and just released, SuperStar Electro, just the thing for F5J.

## SuperStar

Our main news story for our December newsletter is that we have been appointed Australian/Oceania distributors of the SuperStar F3J series by Karel Kudelka. Karel has a long standing reputation as one of Europe's best composite glider

builders and his previous models the Starlight and Starlight 3000 are legends in Europe. Along the way he helped to teach moulded construction to some of the current crop of builders including Lubos Pazderka.

Karel's current Hot F3J ship the 'SuperStar' and it is a very good looking ship, one of those that just looks 'Right'. The SuperStar took out 2nd place in the 2008 US Nats. Karel's new 'SuperStar LIGHT' has contested the flyoff in every F3J Eurotour he has entered this year. Definitely; top 10 finisher in Europe!

December delivery [all 2.4 GHz friendly, includes wiring harness, horns installed and wing bags]:

1. SuperStar full carbon.
2. SuperStar LIGHT full carbon [1800g flying wt.]
3. SuperStar Electro

Span: 3450mm  
Wing Area: 69.1dm<sup>2</sup>  
Aspect Ratio: 17.4  
Wing section: Drella AG 40- AG4X

Prices not set yet, but around **\$2K.**

## TopSky 1 & TopSky 2 DLG

We were looking for a more durable, easy to build entry level DLG and came across the TopSky 1 from China. Created by enthusiasts using Solidworks and CNC technology this is a high tech creation. Match that with proven Drella sections and blue foam cores with unidirectional carbon LE and TE reinforcing this one is tough DLG. One of our videos shows the leading edge of a Mini-TS wing half being hammered at the table, no delicate, blast apart DLG here.

Did I mention the price? Oh, THE PRICE?? Introductory Price TS1 **\$279**; carbon D-box TS2 **\$379**. 2.4GHz safe fuse to order

## CellPro 4S charger

Rated as the safest LiPo charger in the world the 4S Model LIPOCH4S04-A123, for use with LiPo, Li-Ion and

A123 battery packs with node connectors  
4 Amp model for

automatic and manual charging with cell balancing and overcharge protection. Each cell is charged independently, providing exceptional charging safety and elevating RC packs to the safety level of cellphones **\$99.99**.

## Coming Soon.....Pre-order Mirage RES kit design Blaine Rawdon

Few pleasures match coring a thermal with a transparent Monocote floater. The Mirage was the "Best of the Best", very light weight, but with the ability to range far and wide, at 330z [940g]; 112" [2.8m] span, 915 sq. in.[ 59 dm. sq.]

How long since you treid a kit? The world has changed, lazer cut parts mean accurate, mecca-no like construction, CA makes it easy. Very limited numbers.

## Multiplex style 6 pin plug

Perfect for wing connectors per pair **\$2.99**.

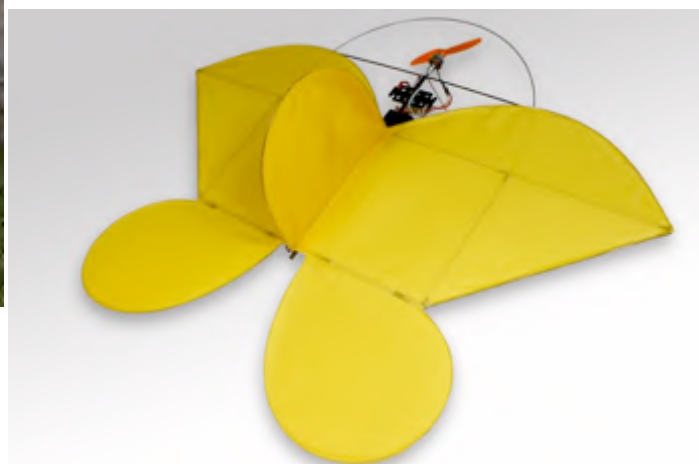

## Servo Mounts all major brands

Replace your wing servos in seconds. Injection moulded servo mounts for all major servo brands: JR, HiTech, Robbe, **\$15.98** pair

## Zlowest Indoor Flyer

Simple 2 channel flying, great for the kids.

Now you have an excuse for flying on Christmas Day. Includes brushless motor/ESC/servos just add your radio system, only **\$75.00**

**MERRY CHRISTMAS** From all at  
Sailplane.AUS

"For God so loved the world that He gave His only-begotten Son, that whoever believes in Him should not perish but have everlasting life."

John 3:16
